

IT Vision Statement

At Eastgate Academy we want both staff and pupils to be confident and competent in the use of IT in all areas of the curriculum.

All teachers will have IT resources, to support their teaching. Pupils will have IT access in each class and will be able to use these skills to support their learning in any teaching area throughout the school.

We feel that technology can be used to make learning both more enjoyable and more effective and that pupils and staff will benefit through learning with IT. We aim to keep pace with educational developments in this area and have a commitment to teachers having the necessary tools e.g. laptops, decimos, learn pads and interactive 10 point touch screens and training to do their jobs effectively.
