

Analyse School Performance: The New RAISEonline

The DfE is replacing RAISEonline with the new “Analyse School Performance” (ASP) platform. In response, Eastgate Academy is working together with TT Education to provide training and support through their one-day *Analyse School Performance* CPD course.

Bring your data with you to this practical one-day workshop. You will learn how to interpret data through the new ASP platform and utilise data to write evaluative comments for your school’s SEF and School Improvement Plan. This workshop normally costs £299 but **we’re delighted to be able to offer you places at £120 per attendee.**

Attending this practical, hands-on workshop will enable you to:

- ✓ Learn how to use the new Analyse School Performance platform.
- ✓ Understand the similarities and differences between RAISEonline reports and “Analyse School Performance” reports.
- ✓ Unpick the message behind the data to enable you to write evaluative comments that will inform your SEF and School Improvement Plan.

Course objectives / outcomes

- Demystify key ASP concepts such as “Floor Standards”, “Average Point Scores”, “Progress Indicators” & “Expected Rate of Progress”.
- Answer the key questions that are most pertinent to your school by interrogating your own ASP data.
- Draw conclusions and formulate hypotheses to inform your School Improvement Plan.
