

## Mastery across the Curriculum – CPD in Norfolk

This dynamic course inspires teachers to provide primary children with meaningful opportunities to move their learning to greater depth. It unpicks the complexities of “mastery” by providing a wide range of practical activities and strategies to encourage children to think for themselves.

Gain a clear idea of the pedagogy of thinking in greater depth and how this reflects on our classroom practice. With a focus on English and Maths and links to teaching and learning strategies for the wider curriculum, you will leave at the end of the day with a deeper understanding of the term “mastery”, along with a renewed vigour for supporting children on their mastery journey.

*“Excellent course. Some brilliant concepts and ideas for deeper learning ....  
... A very informative speaker.”*

*Ben Williams, Head of School, Wetherby St James C of E Primary*

*“I came with my own ideas about what I believed mastery to be. I have now developed my understanding and I am looking forward to planning this weekend!”*

*Catherine Wigg, Yr 5/6 Phase Leader, Ling Bob Junior, Infant & Nursery School*
